1.   About
==============================

   SUI Message Board is a specialized messaging add-on designed
for direct communication between team members working in a
FileMaker network. Like a traditional message board, team
members can post communication both publicly and privately.

   SUI Message Board fosters efficiency by providing one
convenient place for work-related discussion. Integrating SUI
Message Board eliminates the need for multiple external
messengers and sluggish e-mail communication between team
members.

2.   Features
==============================

   - Active contacts list
   - Public and private messaging
   - Status notifications
   - Full customization

   Note: All features are available in this Demo version.
   The non-demo version is fully unlocked and can be customized
   to seamlessly integrate with an external solution.

3.   System requirements
==============================

SUI Message Board requires one of the following FileMaker
products installed on your system:

FileMaker Pro 8.5
FileMaker Pro 8.5 Advanced
FileMaker Pro 9
FileMaker Pro 9 Advanced

FileMaker requires one of the following operating systems:

Microsoft Windows 2000 Service Pack 4
Microsoft Windows XP Service Pack 2
Mac OS X 10.4.5 (Tiger) or higher

```
4.    Usage notes
==============================

Use the following pre-defined accounts to login to SUI Message
Board Demo:

Login: User 1
Password: User 1

Login: User 2
Password: User 2

Login: User 3
Password: User 3

Login: User 4
Password: User 4

Login: User 5
Password: User 5

The User accounts can utilize all features of SUI Message Board
but do not have access to layouts, scripts and data.

For using SUI Message Board in a multi-user environment, it is
strongly recommended to install the program on a FileMaker
server.  When installed on FileMaker, the web-sharing feature
can be used.

When you are finished evaluating our product, please visit our
web site or contact us by phone or e-mail.  We welcome your
feedback and would be happy to assist you in purchasing the
Unlimited or Developer version of our product.
